RE: Telephone Operators -
Alice, Brandy, LaToya and Jose-Supervisor

Dear Larry:

It has been a pleasure to know and work with the above named employees from your office over the past few years.

While working with them, they have demonstrated a high level of commitment and sudden encounters (RUSH's) while performing their duties. They have proven to be reliable and honest individuals who always put forth a great effort in their work while keeping a wonderful disposition.

It is not very often that we are fortunate enough to come across individuals who exemplify above average interpersonal and professional skills. They have demonstrated the ability to work independently without supervision. They welcome any new challenges and constantly extend themselves whenever the need arises.

It is really a pleasure to know and work with these individuals.

Sincerely,

Bill Clemons
